Well, the 4th War Loan drive will start on the 18th and end on the 25th of February. Grenada county put up 150 percent of its quota in the last drive and will not fall down now.

It seems it would be more timely for Congress to devote more attention to winning the war than to the mustering out pay of soldiers who could lose the war if disaster came, as is possible.

C. T. Rainey made a rainy, dismal day a little less gloomy when he renewed.

Please do not bring us any more complicated grocery ads with about 110 prices and a dozen cuts. We can not handle such stuff with our help as limited as it is.

It is interesting to note that ships at the Grenada AAB are participating in the plan of evacuating by air the battle casualties directly from the ports to interior army hospitals.

Just because you have the money to pay for the service, do not call the doctor when soda water or an aspirin or a dose of castor oil will do. These gentlemen work harder than any people in Grenada. All of them are seeing beyond reasonable expectation. Do not waste their time.

Somebody said that a woman from 18-26 had to be pretty; one from 26-45 had to possess poise and dignity; those above 45 had to have money and seeds of life.

Sorry to hear that our WAC friend, Lt. Kramer has been transferred, but glad that the transfer entailed a promotion.

Willie Martin missed his paper Friday and has not slept well since.

Why is it that all government releases should be so verbose, some of them as long as a whatswasallum's dream?

A little boy was sitting on the curb sobbing as if his heart would break. An old gentleman asked his trouble. The little boy said, "I want to do the things the big boys do." The old man, after thinking a moment, the old man sat with him and began sobbing too.

Pumber Rogers has been busy here lately.

The old lady and I sat deep in the saddle Sunday when we attended General Maloney's reception.

The House made a wise selection in naming Walter Sellers of Bolivar the Speaker.

Somebody said Bob Brown was in our midst recently.

Congress is still making a political football of the pre-Pearl Harbor father matter.

I sort of thought the gates of Parchman would be opened wide, but they were not.

NOW is the time for every individual, state, city and county to pay every debt possible to pay. These good times will not last forever.

Pretty soon there will be a bird in a gilded cage at the theatre. What a bird.

We have either got a mill by a house or a house by a mill; as from Millhouse is a new subscriber.

Dear Dorothy: I will take your word for all of those courses (which nobody here can pronounce) you are taking.

G. Kent, the faithful employee of Grant's, makes the second Kent on our list.

We had more bolls than Job this week when we got the two Boyles men up about Hardy also J. P. Jr. in the USN Training Station in Calif.

I saw my favorite Wac Sunday.

Dear Andrew: It must seem like Spring up there with the mercury at only forty below.

Dear Caroline: study and be studious in your duties.

Dear Whyte Jr.: when are you going to send my bag home?

Brother Inals, one of the big boys (in two ways) at the Grenada Industries, cast his lot with us last week.

We can still lose this war, if efforts are relaxed too much. Contrary to what many think, we are far from victory. A heavy loss faces us and our allies in an invasion of Europe.

## Reception At Camp McCain Sunday Afternoon

General and Mrs. Maloney received guests at the Officers' Club, Camp McCain, from three to six o'clock Sunday, in accordance to their annual custom of entertaining at New Years. In the receiving line with Gen. and Mrs. Maloney were General Louis J. Forier, General Cheadle and Col. and Mrs. Roy N. Hagerty.

The reception room of the Club was festive with 64th Division banners, company insignias and charming arrangements of golden California chrysanthemums. A splendid orchestra furnished music, and an artist, whose name we failed to secure, played several violin solos.

Refreshments were served buffet-style in the Club dining room. Guests were officers and their ladies and a small group of Grenadians.

Dear Dr. Smith: your very interesting letter was received and appreciated. After such a nice letter I hate to let your money.

## War Housing In Grenada Nears Completion

Rice Pressgrove, for several years deputy in the Chancery Clerk's office, associated with his brother, John Pressgrove, Chancery Clerk, is now the assistant manager and accountant for Public War Housing program. Building is going forward at Acorn Court near Camp McCain, the project near Grenada Air Base and the project for negroes under construction near Phillips Lumber Company. A news release follows:

The Public War Housing program in the Grenada area begun by the Federal Public Housing Authority in late summer is rapidly nearing completion. Already civilian war workers are occupying the family dwelling units at Camp McCain, and the public housing in Grenada and at the Grenada Air Base will be completed within a month. This War Housing has been built primarily for civilian war workers who have come in the Grenada area to do essential work at Camp McCain and the Grenada Air Base. Only employees of these establishments and their families are eligible to rent Public War Housing. First preference is given to the in-migrant war worker who is living away from his family, but other civilian war workers who are commuting from excessive distances or who are living under temporary or makeshift conditions are also eligible. It is believed that when all the housing units are completed the critical housing problem which exists in this area will be relieved.

The Public War Housing program consists of 168 family dwelling units; 100 dormitory units for women; and 32 dormitory units for men at Camp McCain; 180 family dwelling units; 92 dormitory units for women; 32 dormitory units for men and a 60-family unit project for negroes at Grenada Air Base; also one 40-family dwelling unit project for negroes in Grenada. The family dwelling units include one-room efficiency apartments and one, two and three-bedroom dwellings. The efficiency apartments are equipped with basic furniture such as beds, tables and chairs but not with cooking utensils or dishes. All family units are equipped only with ranges, heaters and refrigerators. All dormitory units are furnished and include blankets, towels and are supplied.

The Public War Housing program is all under one management but rental offices are maintained at each locality. Civilian war workers who wish to apply for War Housing accommodations should apply to the rental office of the project nearest to their place of employment. Rental rates for white family dwelling units run from \$24.50 per month for a furnished efficiency apartment to \$23.50, \$26.00 and \$28.50 per month for unfurnished one, two and three-bedroom units. These rents include water and electricity. Rents for negro dwelling units are slightly lower than for white dwelling units. Dormitory rentals are \$12.00 per person per month in double rooms and \$16.00 in single rooms.

At the Camp McCain housing project, a Community Building for recreation and tenant activities, infirmary, clinic, child care and cafeteria is under construction. At the Grenada Air Base, Community Buildings are under construction at both the white and negro projects. A Commercial Building for food, drugs, and service shops is also being built for the Grenada Air Base projects. Capable directors and operators for these community facilities will be secured, and their efforts will be directed toward making War Housing satisfactory and comfortable for the essential war worker on the home front.

After the program, three trucks were on exhibit and each one of them displaying the deadly weapons of war, consisting of captured enemy machine guns, aerial bombs, hand grenades, helmets, mines, rifles, depth bombs, ash cans, the Chicago Plans and pictures of many actual combats and tragedies taken by the aerial photographers in the midst of battles.

## Abernethy Asks Control Of Negro Troops In South

The following telegram was sent to Hon. H. L. Stimson, Secretary of War in Washington, D. C., on December 31, 1943:

Grenada, Miss., Dec. 31, 1943  
Hon. H. L. Stimson, Secretary of War, Washington, D. C.

Disciplinary control of negro troops must be maintained in the South or else they should be promptly removed. The ruthless acts of negro soldiers stationed at Camp Van Dorn, Camp McCain and more recently at Dyersburg Army Air Base is evidence of the fact that proper military discipline is seriously lacking. I am informed that there are other instances where only prompt level headed action on the part of military and civilian authorities has prevented a repetition of these ruthless acts. Blood has been shed, property destroyed. Disunity resulted. These occurrences are doing the war effort no good. Very frankly the South has had enough of it. I urge you, for the sake of unity and the war effort, to take immediately with military heads to see that such barbarous occurrences are prevented by proper military discipline or else promptly remove the negro troops out of the South.

## Local Workers Help Bethlehem Exceed Ship-a-Day

300,000 men and women from all parts of the country are sharing the company's honors in having achieved the greatest shipbuilding record in history during the year 1943—380 fighting and cargo ships.

The government has permitted Bethlehem to reveal the fact that it exceeded its output its promise, which seemed fantastic when made at the beginning of 1943, that it would turn out a ship a day of major fighting and cargo craft.

The remarkable program carried out by Bethlehem included a 25,000-ton battleship, 27,000-ton aircraft carriers, 14,700-ton aircraft carriers, 18,000-ton heavy cruisers, 10,000-ton light cruisers, 6,000-ton light cruisers, 2,100-ton destroyers, 1,600-ton destroyers, destroyer escorts, tank landing craft, infantry landing craft, and many types of cargo ships including a large number of Liberty ships and Victory ships.

The value of the year's work was equivalent to over 1,000 Liberty ships and, in terms of man-hours, the company estimates the 1943 program was equivalent to the construction of 22 battleships. Approximately 70% of the ships built were fighting craft and 30% cargo vessels.

In addition to the amazing production record of new ships, Bethlehem yards also repaired, converted and serviced over 7,000 vessels, thus playing a major role in keeping our fighting fleets in trim.

Approximately 300,000 men and women were employed by Bethlehem in its shipyards, steel mills and other divisions to accomplish this program. But because the company has set its sights still higher for 1944 it will be necessary to add still more to its present army of employees.

Alit they sweet.

The 4th war loan drive in this city and county will have headquarters in the Chamber of Commerce office and will be directed by the following:

J. P. Pressgrove, Director of the Grenada county war finance committee; Mrs. E. L. Wilkins, chairman of the Women's division, W. F. C. Mr. W. K. Huffington, chairman of

war loan drives, W.F.C.

Mrs. W. W. Whitaker, Publicity. Grenada county's entire quota is the sum of \$391,000.00, including \$271,000.00 worth of "E" bonds.

The drive ends February 24. The Grenada County local committee is ready to function when the 4th War Loan Drive opens officially on January 18th.

Mr. John Pressgrove, County Chairman and Mrs. E. L. Wilkins, Women's Division Chairman, are busy with plans to put Grenada County over the top.

At a meeting at the Court House Monday morning, a representative group of citizens heard Mr. Fair from Louisville and Mr. Hinman, of Greenwood, speak. These two gentlemen have given of their time and energy to instruct 4th War Loan committees all over the Northern part of the State. They both assured their audience that it is not necessary to stress patriotism in this drive. They know, as you know, that our government needs money from the people to carry on the war effort.

Every American is urged to buy extra bonds—and buy all the extra bonds you possibly can during the 4th War Loan Drive. The drive closes February 25th. We are told that manpower is over the hump—maybe. The 4th War Loan Drive will be over the hump—possibly, if you buy your share of bonds.

## THE 4TH WAR LOAN DRIVE IN MISSISSIPPI LIKE OUR BOYS START THE INVASION

**LET'S DO IT** like our boys do when they invade enemy territory! Let's push in "with the down" on opening day of the 4th War Loan Drive and establish an E-BOND "bridgehead" that no other state can reach! Let's make Tuesday, January 18th, the BIGGEST SINGLE E-BOND BUYING DAY in America!

TEN E-BOND PENNANTS have been offered to Mississippi counties for outstanding E-BOND BUYING during the 4th War Loan. They will be awarded to the ten counties exceeding their 4th War Loan and E-Bond quotas by the greatest per cent.

CERTAINLY we want our county to fly the flag as one of the FIRST TEN in E-BOND BUYING. We can, if, like our boys on the fighting front, we DO OUR PART on Tuesday, January 18th.

### YOUR PART

If every Mississippian will buy just ONE E-BOND on Tuesday, January 18th, Mississippi can set an E-BOND BUYING RECORD unequalled by any other state in the Nation. If the 2,000,000 men, women and children in Mississippi will buy one \$18.75 E-Bond on Tuesday, January 18th, we will set a \$37,500,000 E-BOND BUYING RECORD that will go down in War Bond History as one of the biggest homefront jobs of the war.

Of course, every Mississippian (especially the children) can't buy a bond—BUT YOU CAN TAKE CARE OF THAT. MAKE YOUR INVESTMENT IN INVASION a \$100, \$500 or \$1000 E-Bond and help make sure we average 100% for each and every one of our 2,000,000 citizens on January 18th.

**Make Tuesday, Jan. 18  
The Biggest Bond  
Buying Day in  
America!**

MISSISSIPPI, in the 3rd War Loan Drive, was the ONLY STATE east of the Mississippi River, to reach its E-BOND quota. In the 4th War Loan Drive, that starts Tuesday, January 18th, we want to stay out-in-front of the other states in E-BOND BUYING.

**LET'S OPEN THE 4th WAR LOAN IN MISSISSIPPI WITH A  
ONE DAY E-BOND BUYING RECORD THAT WILL SET A  
GOAL FOR THE ENTIRE NATION!**

**INVEST IN INVASION—LET'S ALL BACK THE ATTACK!**

"Ships are essential to Victory, and we shall continue our job of building them at record pace in 1944."—E. G. GRACE, resident, Bethlehem Steel Company

## SHIPS FOR VICTORY

A WORLD'S RECORD IN SIZE AND DIVERSITY

**Bethlehem in '43 built 380 fighting and cargo ships.**

**Value of the year's program equivalent to 1,000 Liberty ships.**

"A SHIP A DAY," with a number to spare, was the record production delivered by Bethlehem in 1943 to the United States Navy, the British Navy and the U. S. Maritime Commission. This program was the greatest in magnitude and diversity ever accomplished by a private builder in the world's history. It marked the fulfillment of a promise made by Bethlehem a year ago to build in 1943 an average of "a ship a day" of major fighting and cargo craft.

The list of ships includes aircraft carriers, cruisers, destroyers, virtually every type of fighting craft, as well as a large number of Liberty ships and other cargo vessels. In addition, Bethlehem ship repair yards converted, repaired, and serviced over 7,000 vessels, a vital contribution toward keeping the Allied fleets in fighting trim.

Measuring the program by Liberty ships, a battleship is equal to forty Liberty ships; and the value of the year's work in Bethlehem's shipbuilding division was the equivalent of over 1,000 Liberty ships.

Part of National Program—Bethlehem is permitted to publish these facts as part of our country's total program. Led by the U. S. Navy and the U. S. Maritime Commission, America's shipbuilding in 1943 has been a national triumph of production.

We salute our fellow shipbuilders and their distinguished records.

We thank our thousands of suppliers whose efforts have been essential to our contribution.

We congratulate the men and women in the Bethlehem organization, in shipyards, steel plants, factories, mines, and in every division, all of whom have had a part in this effort.

Harder Task Ahead—The year's work in Bethlehem's shipyards, steel mills and other departments has been done by 300,000 men and women. More will be needed. Already a larger shipbuilding task has been assigned to us for 1944. We shall undertake that job with the knowledge that it must be done, at maximum pace, to hasten the day of Victory.

#### \* 38 TYPES OF SHIPS \*

Program 70% Fighting Craft, 30% Cargo

Bethlehem's total wartime shipbuilding program includes approximately 1,000 fighting and cargo ships, 70% of the program being in fighting craft, and 30% in cargo. These are of 38 different types including the following:

6,000-Ton Light Cruisers	Tank-Landing Craft
	Infantry-Landing Craft
	14,700-Ton Aircraft Carriers
	27,000-Ton Aircraft Carriers

### That Nagging Backache

#### May Warn of Disordered Kidney Action

Modern life with its hurry and worry, irregular habits, frequent eating and drinking—its risk of exposure and infection—throws heavy stress on the work of the kidneys. They are not to become over-taxed and fail to filter excess acid and other impurities from the life-giving blood.

You may suffer nagging backache, headache, dizziness, getting up nights, leg pains, swelling—feel constantly tired, nervous, all worn out. Other signs of kidney or bladder disorder are sometimes burning, scanty or too frequent urination.

Try Doan's Pills. Doan's help the kidneys to pass off harmful excess body waste. They have had more than half a century of public approval. Are recommended by grateful users everywhere. Ask your neighbor!

Tuesday afternoon the army wives held their weekly sewing bee at 2 p. m. Some of the girls made aprons, tablecloths, tea towels, for the USO Women's Division. Others were making blouses or dresses for themselves. Following the sewing bee, tea was served. Mrs. Arlie Finlay from St. Paul, Minnesota made home made gingerbread for the tea.

This week the girls from the North

had a real treat at the weekly Army Wives luncheon. Mrs. Morgan, house-mother of the building, Miss Bouchard, director, and Betty Ann Gresham, secretary, made the luncheon which consisted of Southern fried chicken, rice with gravy, lettuce and tomato salad, and mice meat pie with coffee. All of the girls seemed to enjoy their Southern food.

The beginners dance class was held at the USO Women's Division at 8 o'clock. At the social which followed, the hostesses were Mesdames Eli Whitaker and Carl Day who served cookies and coffee.

On Thursday morning, army wives held a breakfast at 10:30 a. m. which Mrs. Maxine Schaeffer from Ohio cooked and served. After the breakfast they adjourned to crochet, knit and embroider.

REDDY KILOWATT  
Your Electric Servant

HCL

Every homemaker can tell you the meaning of the three little letters—"H.C.L." Why? Because they stand for the "HIGH COST OF LIVING." Living costs have GONE UP over 22% since August 1940, making it increasingly difficult for homemakers to live within their budgets.

However, there's one very important item in your household budget that hasn't gone up. It's dependable Mississippi Power & Light electricity. Thanks to careful business management—it still serves you at low, before-the-war rates. Indeed, electricity is STILL cheap!

Any reduction you can safely make in your use of electricity will help the voluntary program to conserve fuel, man-power, transportation and materials. Remember—use all you need—but need all you can!

## The People Have Spoken

The quadrennial city election is over. The votes have been counted. It is idle to pursue the subject any further.

Each voter voted as I did, that is for the men he wanted to vote for. Nobody should have any apology to make for exercising his inherent right of voting. I have none.

Mr. Odom, the present City Marshal, and the only one of the old administration who will not succeed himself, went over to his successful opponent, Mr. Orenshaw, and congratulated him and wished him well. If Mr. Odom did the manly and gentlemanly thing, and he with the exception of alderman Moss, was the only loser. It certainly behooves the rest of the people of Grenada to accept the results of the election gracefully.

The city administration, with all pulling together, faces a hard enough time, and it is sincerely to be hoped that all people, including the newly elected officials, will forget the election—the results of which can not be recalled—and work TOGETHER for the good of Grenada.

Since one of my friends told me that some people thought I had something to do with a last-minute circular delivered in Grenada on Saturday, the day of the election, and since I promised him that I would make a public statement about it, I make the following statement: "I did not write, print or have anything to do with the composition of any last-minute political circular relative to Saturday's election. Nobody connected with this newspaper had anything whatever to do with it." While my advice is to forget the origin of the circular and the election, I will remind anyone interested that there are two other printers in Grenada. If anyone wants to pursue the subject, inquiry may be made of the other printers.

This is notice to all that we propose in the future as we have done in the past to follow the Corrupt Practice Act which we understand compels political ads and political circulars to be signed by the candidate as the author, or to have printed thereon "Submitted to and approved by" the candidate or by his authorized campaign manager.

## Not Too Complicated, Please

For the benefit of the record, we wish to announce that we will have to continue to refuse to accept complicated ads, or the so-called grocery store ads, which contain line after line of figures (or prices) and a lot of little cuts. While our force is so limited, we will have to refuse to accept ads of that nature—the kind that looks like a leaf out of a mail order catalogue.

We just simply have not the time—with only one printer—to fool with such ads. We, too, have OUR problems.

## "Stat"

"State's Surplus Is Problem," is the head of the article by Kenneth Toler in the Sunday edition of the Commercial Appeal.

It does not seem to be a very great problem to me.

## CARD OF THANKS

We are most appreciative of the solicitude shown us when the news that our son, Jack, had been killed. May God bless each of you. Sincerely,  
Mr. and Mrs. G. W. Ward and Family.

## ANNOUNCEMENT

Mrs. H. J. Thiel, president of Grenada Garden Club for 1944, will be hostess to the Club at her home at 747 Line Street on Thursday, January 20, at three o'clock.

## CARD OF THANKS

I am highly appreciative of the fine vote I received on Saturday for the office of alderman, and especially appreciative of the kindness shown me by the ladies.

While I was defeated I believe that the two successful men are good men, and I shall cooperate with them, and I wish them well in their trying duties.

Sincerely,  
DAVE CHILDERS.

## PERRY THANKS FRIENDS

I want to express my sincere appreciation to those who supported me in the recent election. My opponent, Mr. Proby, has my best wishes for a successful administration.

viewing it from the outside. It seems to me that the largest part of the \$24,000,000.00 surplus in the treasury on January 1st, should be invested in government bonds, so that, when the pinch comes (as it WILL come to individuals, counties, states and the Nation) there will be funds available to pay off accumulated debts.

It would be a financial crime for an individual, who is making unprecedented salary now, to spend ALL his money; it would be a financial crime for Mississippi to live up to its income without saving away a good part of it.

## Burning The Barn

Purportedly and inferentially the "Draft Everybody" law was designed to curb strikers. Why has not the President the guts to come out and say so and draft all union people working in defense plants IF THAT IS WHAT HE WANTS. Why pussyfoot? Why destroy the barn to get rid of the rats?

Who knows whether the invocation of the law will end with the forced labor (like Hitler has) of men and women working in factories producing war material? Who knows when and where it WILL stop?

The enactment of the Draft Everybody law will mean the end of freedom and of constitutional government in America, only shreds of which even now remain.

## Help Win The War

Here are some suggestions about the war situation, and how you can help win the war:

1. Do not buy rationed products unless you need them. Do not patronize black markets.
2. Get out your pencil and paper right this minute and begin figuring your income tax. Pray God Almighty for guidance each and every night until the night of March 15, then mail in your complicated form with the hope and prayer you will keep out of jail.
3. Produce more and more food, for food is vital to victory.
4. Waste nothing.
5. Use coal, electricity, gasoline and other critical materials sparingly.
6. Travel only when necessary. The transportation companies are overtaxed now, and their equipment is wearing out fast.
7. Share your car seats. Never travel with an empty seat if you can avoid it.
8. Save rubber. Quit trying to wear out the concrete curbs with rubber tires. It will not "work."
9. Save your tin cans. Grenada has fallen down badly on this program.
10. Save fats. Grenada has also fallen down on this program.
11. Save paper. Here in Grenada, however, nobody knows what to do with it when, or if they save it.
12. Do not repeat idle gossip. Keep your mouth shut, especially about the war.
13. Keep digging.

## Dear Uncle Sam

Dear Uncle Sam:

Your nice bunch of forms for 1943 income tax received. I am just a poor, ignorant printer. I am not a CPA, or any kin to one. I do not know whatthehell all of that stuff is about.

I am enclosing herewith a check on the Grenada Trust Bank, dated today and in the amount of "total balance to my account." Take all I have in the bank, for my all is all I have anyway. I am like the country negro who, after poring over his draft questionnaire about an hour wrote on it, "I'm ready when you is," signed his name and sent it in.

I hope Judge Cox does not send me to Atlanta busted.

Yours truly,

W. W. Whittaker.

## REPAIR NOW!

for a year that will be TOUGH!

You know what you're up against. Farm equipment can't be replaced if there's any way to put it in good operating condition. That's a government order! With help so scarce, farming is going to be tough. It's only common sense to put all your machines in the best possible shape.

This is no time to take chances and wait for your repairs until you need the equipment. Our shop is swamped, but we'll get your work out if you give us advance notice. And we'll get it out RIGHT because we have the tools and the experience it takes to service farm equipment.

Look over your equipment, then stop in early and sign up... with your McCormick-Deering dealer...

## what ONE ACRE can do

America's food and feed production goals for 1944 exceed all records. The question is being asked—"How many more acres must be put under the plow?" In the face of labor and machinery shortages, the question might better be—"How much more can be produced on every acre now being farmed?"

Experiment station results show that the intelligent use of potash, properly balanced with other essential plant foods, can greatly increase yield and quality. If you do not know just how much potash your soil needs to make every acre do its best, your official agricultural advisers will tell you.

## Yes, We Were Thinking

Yes, we were thinking of the men who were at Tunisia, Sicily, Italy, Guadalcanal, Buna, Tarawa, New Guinea, Ito, Kiska and of the men who will be at Rome, Berlin and Tokyo.

These men represent every walk of life and many had money and social position, many held high positions with big corporations, many of them operated businesses of their own, many of them had good positions with old age pensions and seniority rights established and we could go on and on naming the good things these men left including their loved ones, but they didn't hesitate but went out to face the enemy, but trusting us who were left behind tending the home fires, to back up with everything they needed. (What a trust they imposed upon us).

## It Would Be Terrible

Yes, we thought that since these men have gone the limit and left all these good things behind and trusted us to back them up to our utmost even to sacrificing a few of our comforts (and we do have plenty yet) what a horrible nightmare it would be if we failed them and didn't buy war bonds during this Fourth Bond Drive and left them to shift for themselves, to get their food and clothes, their guns, bullets, tanks the best way they could while facing the horrible enemy thousands of miles from home. (It's too horrible to think about).

## But We'll Be True

Then, we had another thought, yes we figured out that we AMERICANS have never had a trust imposed upon us that we didn't fulfill and we knew in our hearts that the FOURTH WAR BOND DRIVE would go over with a bang with some extra hanging over.

We also figured out how we could get our men some extra ships, guns, bullets and food besides the money we will have from the sale of War Bonds and after thinking it out, it was so simple we wondered why some one else hadn't thought of it first.

We could take the money from the SUBSIDY department also the FOOD STAMP department and use it to get our men a lot of extra ships, planes, guns, and ammunition and we we might shorten the war if we turned all of this loose upon the enemy at one time.

LET'S GO AMERICA, ON WITH THE FOURTH WAR BOND DRIVE. Some of us may be like the WIDOW with the one mite, but if we can't buy big bonds we'll buy little bonds and if we can't buy little bonds we'll buy War Savings Stamps, but we'll all do our part.

### Indexing Names

The latest system for indexing personal names enables a clerk to locate quickly even those that sound alike but are written differently, says Collier's, such as Kelly with 14 spellings, Snyder with 29, and Burke which is also written Bork, Byrk, Bhourque and 36 other ways. Each entry is listed alphabetically under the first name in the section containing all surnames with the same chief consonant sounds. Hence, the card for Lily "Burke," however spelled, would be filed in section Brk under Lily.

### Gems of Thought

Be what your friends think you are; avoid being what your enemies say you are, go right forward and be happy.—Pomero.

The soul of a philosopher runs away from his body and desires to be alone and by herself.—Plato.

It is something to have an influence on the fortunes of mankind; it is greatly more to have an influence on their intellects.

For every tree is known by his own fruit. For of thorns men do not gather figs, nor of a bramble bush gather they grapes.—Luke 6:44.

### Records Phone Talks

A new portable device picks up and records incoming and outgoing telephone conversations with a sapphire stylus on roll film, one leading of which will take down 15 hours of talk. Recording by induction, the machine does not require any physical connection with the telephone instrument or the wires, even being able to operate some distance from them.

## WEEKLY NEWS ANALYSIS

### Jap Defensive Positions in Pacific Crumble Under New Allied Invasion; Senate Studies Revised Tax Measure; Government Acts to Halt Rail Tie-Up

(EDITOR'S NOTE: When opinions are expressed in these columns, they are those of Western Newspaper Union's news analysis and not necessarily of this newspaper.)  
Released by Western Newspaper Union.

Goin' Back—Brought to the Ukraine following its capture in 1941, these German farmers left with their possessions when Nazi armies fell back before the Red's 1943 offensive.

### SOUTHWEST PACIFIC: New Landing

One day after U. S. bombers had dumped 350 tons of explosives on Arawe on New Britain island, U. S. warships moved shoreward to the enemy base and pumped big shells into the defenses, even as planes returned to assist in the bombardment.

After this terrific crescendo, U. S. doughboys swarmed ashore to establish a beachhead on this strategic island, center of Japanese shipping for supplying its embattled forces on New Guinea and Bougainville.

By landing on Arawe, U. S. forces drove a wedge into Jap positions on Cape Gloucester to the west and Gasmata to the east, where the enemy has established airfields to help cover the barge operations with which he feeds supplies to his troops in this area by traveling along the jungle shorelines by night.

While the U. S. stormed Arawe, heavy bombers continued to smack the Marshalls, small Jap island holdings in the central Pacific.

### RAILROADS: Strike Called

With 97.1 per cent of the operating railroad union members voting to strike to enforce their demands for higher wages and with the walk-out date set for December 30, the government acted quickly to prevent transportation interruption.

Said spokesmen for the 350,000 trainmen, firemen, engineers, conductors and switchmen who have demanded a 30 per cent wage increase with a minimum boost of \$3 daily: "It is a strike against inflation for the privileged few and deflation for the many."

To meet the crisis which was provoked by the unions' rejection of an emergency board's award of a 32-cent a day increase, the government's national mediation board summoned both union and rail officials to meet to settle differences.

Meanwhile, over 1,000,000 non-operating rail union members awaited final congressional action on a resolution granting them an eight-cent-an-hour pay boost over the U. S. stabilization director's objection.

### BRITAIN:

#### Miners Ask Raise

Seeking to boost average weekly earnings from \$16.60 for underground employees to \$24, and from \$13.40 for surface employees to \$22, Britain's Mine Workers' federation planned to take their case to a government panel if employers rejected their demands.

Because of possible coal shortages, the government recently cut home rations for the fuel by 30 per cent, and it was anticipated that any strike by the 690,000 miners might result in further reductions.

#### Child Delinquency

Like the U. S., Britain has its juvenile delinquency, and most of it is attributed to lack of adequate supervision because of parental occupation in the war effort.

Juvenile delinquency has increased from the prewar rate of 4 per 1,000 to 9 per 1,000, principally because thousands of fathers are in the armed forces, one out of four mothers are holding full time jobs, and inadequate rations compel families to eat at least one meal away from home.

### ITALY:

#### Action in Air

Connecting link between Germany and Italy, Europe's historic Brenner pass was pounded by waves of U. S. bombers, seeking to disrupt the rail lines feeding Nazi armies to the south.

By striking at the pass, the bombers countered a successful Nazi air raid on the southeastern Italian port of Bari, in which 30 German planes whizzed in at low level and sank 17 Allied cargo vessels lying at anchor in the harbor.

On the ground, U. S. and British troops clambered forward over mountainous country toward Rome in sleety weather. Fighting bitterly from strong defenses in the hills, and throwing armored formations into action on the level plains, the Nazis succeeded in slowing Allied advances.

### CONGRESS:

#### Tax Bill

Tacking on an additional 144 million dollars, the senate finance committee approved a new 2 billion, 294 million dollar tax bill which, if passed by congress, will boost U. S. revenues to 43 billion dollars yearly.

Written under Sen. Walter George's chairmanship, the senate bill requires payment of the 3 per cent Victory tax by everybody with income over \$24 a year, and raises levies on amusements, travel, alcoholic beverages, cosmetics, furs, luggage, toilet articles and other luxuries.

Also included in the bill was a provision requiring labor organizations and farm co-operatives to file financial statements annually.

#### More Whisky

As the senate's liquor investigating committee charged that big distilleries "... are using the war emergency to get control of the wine and beer industry," a federal grand jury called on Hiram Walker & Sons, Seagram & Sons, National Distillers Products Corp. and Schenley to present records of the companies' stock organizations, including their wineries and breweries, and their distribution and merchandising practices.

#### Subsidies

Action in the senate on the tangled subsidy question became further tangled with the banking committee's recommendation that consideration of subsidies be postponed for 60 days.

Previously, the banking committee had turned down the proposal of Sen. John Bankhead (Ala.) to abolish subsidies under which the government reduces consumers' retail prices by paying processors the difference for their charges, and had also tabled the suggestion of Sen. Robert Taft (Ohio) to limit subsidies to a half billion annually instead of one billion.

## HIGHLIGHTS... in the week's news

**FLU:** Almost a thousand people died of influenza in Great Britain last week, the highest since the epidemic began. In the previous week 709 succumbed.

**NURSES:** Plans to conscript registered nurses for service with the armed forces have been dropped, Representative Bolton said, after a conference with war department officials.

**HONESTY:** A 43-year-old Briton of American descent has been sentenced by a London court to nine months' imprisonment for receiving stolen goods. His name is Abraham Lincoln, and he claims to be a grandnephew of "Honest Abe." Lincoln was charged with receiving a calculating machine which he knew was stolen from U. S. army headquarters.

## Things I Never Knew 'Til Now About Miss America:

WACs are considered precious government commodities. . . . At most camps when a soldier dates a WAC he must sign for her when he takes her out and when he brings her back. . . . The utility bags the WACs carry are known as "portable powder rooms." . . . WACs are permitted to wear lipstick, but they must wipe it off before putting on their gas mask and before going into the mess hall (so they won't smudge the drinking cups). . . . Though every WAC is issued two girdles, regulations do not state whether she must wear them. . . . The only difference between the girls' barracks and the men's is that the WACs have shades in their windows (to keep the wolves away from the door!). . . . On the way to Africa the WACs dubbed their life preservers "second fronts."

The WACs at Algiers live in a convent bldg. and must be inside at 1 o'clock every evening except one night a week when they get a pass until 11. . . . You'll never see a WAC walking arm-in-arm with her boy friend (because she must keep her right arm free for saluting!). . . . Gen. Eisenhower, after reviewing the WACs, commented: "They are among my best troops." . . . In North Africa, an M.P. stopped a WAC because she failed to salute a group of second lieutenants. . . . "Would you have saluted," she snapped, "if they called you 'Toots'?"

For the first time, women may now enlist in the WAC specifically for service with the Air Forces, and will be assigned to the AAF after completing basic training. . . . Air-WACs are eligible for 150 specialized jobs in radio, photography, medicine, mechanics, public relations, weather, instructing and other fields. . . . An Amphibian Commando recently sent his mother, a WAC, some spending money and enclosed a note reading: "Mother, this is my salute to you. . . . The more there are of you the sooner we'll be home."

Each WAC is permitted to have three pin-up pictures in the barracks, but photos of movie stars are rare among the girls (their glamour boys are brothers and sweethearts overseas). . . . The WACs stationed in North Africa claim they'd rather receive vitamin pills and calcium tablets as Christmas gifts than anything else. . . . WAC slang for cosmetics is "dry ammunition." . . . WACs aren't permitted to wear earrings (a military appearance must be maintained at all times). . . . They may wear signet, engagement or wedding rings—but bracelets and costume jewelry are taboo. . . . Another favorite with the WACs is this G.I. comment: "There are so many women in the Army now that when a soldier sees a uniform coming down the street he can't tell right away whether to salute—or whistle!"

The Air-WACs at Kingman Army Air Field, Ariz., call Lt. Evelyn Biggs, the femme postal officer—"Postal Packin' Mama." . . . Muriel Hubbard McCormick, Rockefeller's granddaughter, is a WAC in the motor corps. . . . WACs aren't permitted to carry any weapons—not even imitations. . . . The girls refer to G.I. shoes as "gruesome twosomes." . . . The green ribbon WACs wear over their left breast pocket means that they served honorably in the WAAC and re-enlisted when the corps was made part of the regular Army. . . . The first thing most WACs look forward to after the war is to be able to sleep on an inner-spring mattress. . . . The WACs have an answer to the soldiers' chant: "The WACs and WAVES are winning the war, so what the hell are we fighting for?" . . . It is: "The Army thought they won the war, but the WACs were there the day before!"

The WAC outfit furnished each recruit would cost her \$250 in the shops (each girl's clothes are fitted to her). . . . Her leather gloves alone would cost \$15. . . . WACs refer to a date as a "night maneuver." . . . Dark nail polish is taboo for the WACs. They can use nail polish provided it's light and ladylike. . . . Their favorite place for hiding gewgaws and knick-knacks is under their hats, of all places! . . . The last WAC census showed that the largest percentage of the girls were 22 years old. . . . Gen. George C. Marshall's niece and Gen. Douglas MacArthur's cousin are WACs. . . . Sgt. Alvin C. York's niece is a sergeant in the WACs. Once, while drilling a group of recruits, she was heard to shout: "When I tell you to come to attention, I mean come to attention—AND NO WIGGLIN'!"

**Quotation Marksmanship:** Irene Vis: Leaves turning cartwheels on the lawn. . . . Hilda Morris: Snow, tufting the branches, looking like lace-edged valentines. . . . Henny Youngman: The big "Y" in 1944 is Dewey, but the very big "I" is still FDR. . . . H. Klurfeld: Rationing divides goods; inflation devours it. . . . M. Richardson: His conversation was as pointless as a pretzel. . . . Helen Todd: A face starched with disapproval. . . . Bob Hichens: The secret was hushed from place to place.

## AROUND THE HOUSE

Stubborn particles of dirt that settle in mouldings, cracks and other hard-to-get-at corners can be dislodged by whisking with a paint brush that has been dipped in soapy water.

Instead of pricking your fingers pulling out sandburrs, hold your socks or other clothes over a pan of water and pull off the burrs with a regular hair comb.

If your tablecloth is beginning to look shoddy, cut it up with the pinking shears to make place mats, bibs for the children, or pot-holder pockets to hang on the kitchen wall.

Before storing white shoes or other summer footwear, wash and replace the shoe laces, clean or polish the shoes, insert shoe trees, and place the shoes in boxes or other wrappings. They will keep better and be ready for immediate use next season.

When hot compresses are required, use a potato ricer to wring out the hot water and save your hands.

### English Youth Proved Worthy of Holmes' Gift

An English boy named Rupert Holland was only in his teens when he wrote to Sir Arthur Conan Doyle for his autograph. He enclosed a stamped, addressed envelope and also a card for the signature.

After several days the envelope came back through the mail. When it was opened the card for the signature was missing. In fact, there wasn't anything in the envelope. Why had Conan Doyle bothered to send it? Young Holland was determined to find out.

He carried the envelope to the window and examined it closely. Soon he found what he was looking for. On the inside, and close up under the flap, was Conan Doyle's signature, written in very small letters. With a boy correspondent, the writer hadn't been able to resist the temptation to imitate his world-famous character, Sherlock Holmes.

Food that have baked or dried on enameled ware can be loosened by soaking the utensils in hot water. Then wash as usual with soap and water.

Examine children's shoes frequently. In as short a time as four weeks a child's foot may grow from one to three sizes larger.

To keep stockings and socks from wrapping around the clothesline on a windy day, drop a marble in the toe of each. You'll get longer wear from your stockings if you take this precaution, and these days that is something.

CALLING ALL CAFFEYS

The following is an extract from a letter received from Mr. M. C. Caffey, of Chicago, and it should be of interest to every Coffey and every one descended from the Caffey:

I noticed mention of my kin, folks, Mrs. T. T. Hayward and Mrs. S. P. Caffey, being honored for having so many soldiers in the service. I thought of something that would make an interesting item for your paper. You know the Caffey clan is numerous in all its connections in Grenada and Montgomery counties. They are my kin folks and I have lately looked up its history in the genealogy section of the Newbury Library here. Before coming

to that country in 1940 from Gilford County, North Carolina, they seemed to have had their origin in the early settling of Maryland and furnished soldiers in the Revolutionary War from Dorchester County, Maryland. A mention of this in your paper would make an item for many a scrap book because they and their kin have taken root in that country like the Bermuda grass. Wishing you the best for the New Year, I am,

Yours,  
Mickel Clark.

PRISON SENTENCES

The Post Public Relations Officer has received word from Brig. Gen. H. N. Gilbert, USA, Director of the War Department Office of Dependency Benefits, an activity of the Army Service Forces, to the effect that three women and a former soldier received prison sentences aggregating six years for unlawfully obtaining family allowance payments. The convictions were handed down by Federal Court Judges in Boston, Massachusetts, Miami, Florida, and Los Angeles, California.

"Those who unpatriotically defraud the Government by illegally receiving a family allowance will be quickly apprehended and prosecuted," General Gilbert stated.

I imagine when the weather gets warm they will put Hawdy-do Adams back to work.

**Relief At Last For Your Cough**

Creomulsion relieves promptly because it goes right to the seat of the trouble to help loosen and expel germ laden phlegm, and aid nature to soothe and heal raw, tender inflamed bronchial mucous membranes. Tell your druggist to sell you a bottle of Creomulsion with the understanding you must like the way it quickly allays the cough or you are to have your money back.

**Bombs are Bursting in America**

No, not block busters made of steel and filled with deadly TNT!

The kind exploding in our midst are the inevitable by-product of a global war... ECONOMIC BOMBS! They do not demolish, maim or kill. They injure in other ways—upsetting our normal routine of life—forcing restrictions on what we eat—depriving us of some luxuries—eliminating many businesses that formerly flourished.

Economic bombs affect YOU... US... EVERYBODY! And none of us likes that. But neither you nor any of us are going to let such disturbances get us down.

At Lion Oil Refining Company, we are looking forward to the day that Victory becomes

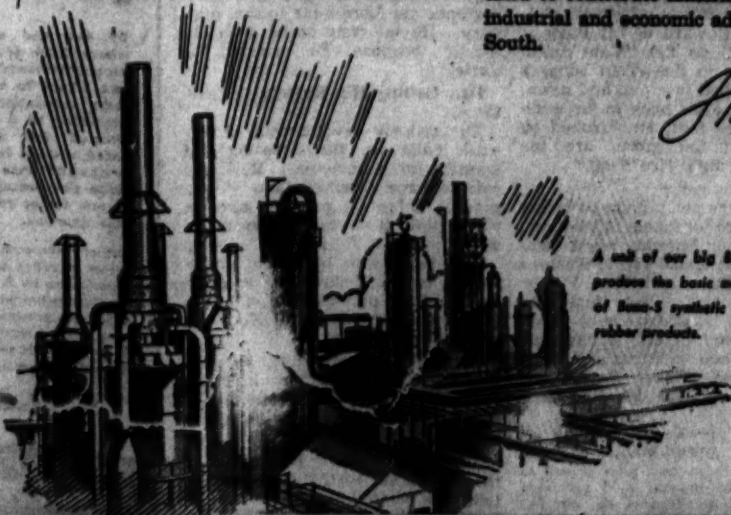

history—when again our dealers can "fill 'em up" for you without coupons—when rationing and shortages will simply be unpleasant words in our memories.

**A Greater South is in the Making**

In the meantime, through constant research and experimentation, Lion has succeeded in developing and is now producing from Southern crude oil, several components of 100 octane gasoline; vastly improved lubricants; Butadiene, the basis of Buna-S synthetic rubber; ingredients for explosives; and other vital materials required for war.

From these activities have come increased employment and expanded payrolls. From them will come post-Victory products destined to contribute materially to the greater industrial and economic advancement of the South.
